

CALL FOR PAPERS

AI and Society Conference

11-12 June 2026 | Bocconi University, Milano

Summary

The scientific committee invites high-quality submissions of empirical or theoretical research in economics on (i) the role of artificial intelligence in advancing research methods and (ii) its broader impact on modern societies.

Possible topics include:

- Causal inference with AI-generated annotations
- Interpretability of deep learning predictions
- Deep learning for solving economic models
- AI-enhanced survey methods (e.g., qualitative interviews, synthetic agents)
- AI-enhanced data curation methods (e.g., historical archives)
- The regulation of AI
- Algorithmic fairness
- Macro- and microeconomic impacts of AI on economic growth, financial markets, labor markets, educational outcomes, political outcomes, research productivity, the environment, etc.

Keynote Speaker

Sendhil Mullainathan will deliver the keynote presentation.

Travel and Accommodation

The conference will cover travel and accommodation costs for presenters.
